

**PM POSTER SESSION 2**  
**2:45pm – 3:30pm, Room 102**

Poster Number	First name	Last name	Title
1	Sohyun	Jeong	Prescription Cannabinoids Outcomes in Medicare beneficiary: Matched Cohort and CaseCrossover study
2	Michelle	Keller	An updated systematic overview of systematic reviews evaluating interventions addressing polypharmacy
3	Michelle	Keller	Design and evaluation of a specialized ambulatory care polypharmacy clinic
4	Matthew	Cosmai	Educational Videos To Inform Older Adults About Medication Safety
5	Lisa	McCarthy	Patient and clinician’s experiences with how and why prescribing cascades occur: a qualitative descriptive study
6	Veena	Manja	Oral Anticoagulants are Markedly Underutilized in VA Nursing Home Veterans with Atrial Fibrillation
7	Mostafa	Mohamed	Effect of Polypharmacy and Potentially Inappropriate Medications on Patient-Reported Functional Decline in Older Adults with Advanced Cancer Receiving Systemic Treatment
8	Victoria	Beamer	Implementing VIONE framework for optimizing medications for veterans in a GeriPACT clinic
9	Darren	Drittel	Polypharmacy and medication utilization over time among older adults with inflammatory bowel disease
10	Helen	Omuya	Randomized Control Trials of Deprescribing Outcomes in Older Adults with Polypharmacy – A Systematic Review
11	Thomas	Reese	Reinitiating medications after successful deprescribing: a retrospective analysis of a randomized clinical trial
12	Nicole	Schindler	Benzodiazepine/Z-Drug Deprescribing Definitions and Falls Outcomes in Electronic Health Records

13	Antoinette	Coe	An Area Agency on Aging Community Care Transition Initiative for rural older adults: medication problems from a pharmacist telehealth medication review
14	Nicole	Osbaugh	Implementation of a Deprescribing Initiative to Reduce Potentially Inappropriate Medications (PIMs) at the VA Eastern Colorado Health Care System
15	William	Mills	Novel Medication Management Program Decreases Hospitalization Rate in Geriatric Home Healthcare Patients
16	Robert	Wahler	A Patient Activation Approach towards Reducing Medication Harm among Older Adults – A Pilot Study
17	Robert	Wahler	Community Based Participatory Research (CBPR) to Develop a Deprescribing Intervention
18	Lauren	Welch	Exploring Deprescribing Experiences of Older Veterans
19	Nina	Jreige	Implementing a Standardized Geriatric Medication Review Process
20	Hamid	Mohtashami	Medication discrepancies in residents at the Skilled Nursing Facilities”
21	Quratulain	Syed	Gabapentinoid Prescribing in Veterans Administration Emergency Departments Implementing EQUIPPED
22	Marcio Galvão	Oliveira	Using a mobile application to reduce potentially inappropriate prescribing for older Brazilian adults in primary care: A randomized clinical trial
23	Spencer	Davidson	Falls Assessment of Medications in the Elderly (FAME) Deprescribing Program for Older Veterans at Risk for Falls: Effects on Drug Burden and Falls
24	Samuel	Terman	Antiseizure medication withdrawal practice patterns: a survey among members of the American Academy of Neurology and EpiCARE
25	Timothy	Anderson	A tailored outreach program to engage patients and physicians in deprescribing chronic benzodiazepines in primary care

26	Armando	Silva Almodóvar	Exposure to Potentially Inappropriately Prescribed Medications Based on Renal Dosing Criteria among Medicare Patients Receiving Dialysis
27	Min Ji	Kwak	The prevalence high dose heart failure medications prescription among older adults with heart failure
28	Ruthanne	Sobecki	Guidelines for Deprescribing Antipsychotics in Dementia Residents in Long-term Care Settings: A Literature Review
29	Matthew	Growdon	High-risk medication use among community-dwelling older adults with dementia living alone
30	Lauren	Hunt	Deprescribing of antidementia medications for hospice enrollees with dementia
31	Nuzha	Amjad	Patient's perceptions of "Intensity" of Heart failure medications-a Qualitative Analysis
32	Tasce	Bongiovanni	Trends by Race/Ethnicity in Gabapentinoid Prescribing After Surgery in Older Adults
33	Nagham	Ailabouni	Co-designing the PRIME tool to empower people living with dementia and their caregivers to initiate deprescribing conversations
34	Grace	Kim	Deprescribing Aspirin for Primary Prevention of Cardiovascular Disease in Geriatric Patients
35	Shelly	Gray	Update of meta-analysis of interventions to reduce adverse drug reactions in older adults
36	Nancy	Carballo	Speeding Events Among Older Drivers with Sleep Disorders and the Effect of Sleep-Promoting Medications
37	Stephen	Supoyo	A Primary Care Intervention to Increase Clinician Comfort with Deprescribing in Older Adults
38	Jonathan	Norton	Clinical Circumstances Underlying Gaps in Dispensing
39	Jonathan	Norton	Improving Communication Around Medicatons in Skilled Home Healthcare: The HOME Tool Feasibility and Usability Pilot in EPIC
